WHOLESALE CATALOGUE

FOR FLORISTS AND DEALERS ONLY.

ANEMONE WHIRLWIND. This illustration conveys but a very inadequate idea of the wonderful beauty of this superb novelty, erving only to represent the wonderful profusion of bloom and grand display on our grounds during the month of October, 1894.

VICK & HILL, Florists,

Edward H. Vick.
Fred. W. Vick.
John Hill.

ROCHESTER, N. Y.

To Our Patrons.

We are now pleasantly located at Barnard Crossing, four miles north of Rochester (from the center of city) on the Charlotte Branch of the N. Y. C. & H. R. R., and only five minutes walk from the Rochester Electric Railway (Charlotte Branch).

In selecting this spot for our future home, we feel that we have been very fortunate in obtaining one of the very choicest pieces of land in this county for Floriculture, and as it is in close proximity to our former place of business, those of our customers who have had direct dealings with us at our greenhouses in former years, will find our new location has every convenience of modern transportation, both for individuals and merchandise, Telephone service, &c.

During the past season we have erected a large range of glass consisting of eight houses, each 18 x 100 feet, and one propagating house 11 x 100 feet. All are built according to the latest and most approved plans, heated with both steam and hot water, well furnished with the best ventilating apparatus, so that stock may be grown under the most favorable and healthy conditions.

We believe that with new soil, new houses and other favorable conditions surrounding us, we are in a position to serve our customers better than heretofore.

We wish to thank our customers for their patronage, and trust that we may be favored with their orders in the future. To those who have had no dealings with us, we wish to say, favor us with a trial order. We guarantee satisfaction.

Respectfully yours,

VICK & HILL.

Novelties and Specialties.

NEW SILVER-EDGED ABUTILON, SOUVENIR DE BONN.

A novelty with so many distinct and valuable characteristics as are contained in this New Abutilon is seldom introduced. It is a strong, healthy grower, with large foliage of a deep green color, each leaf being handsomely bordered with a broad white margin in the same manner as the Silver-Edged Geranium. The flowers are quite large, a beautiful shade of orange, with showy crimson veins. Equally valuable for bedding or decorative purposes.

Price, per dozen, $1.50; per hundred; $12.00.

ANEMONE WHIRLWIND.

(*Anemone Japonica Alba, fl. pl.*)

New Double Flowering White Anemone.

It is with considerable pride that we announce to the *Floral World* that we are the disseminators of this *superb and valuable novelty*. Not often is such a rare and valuable acquisition added to our list of hardy herbaceous plants, and especially one which has so many valuable characteristics. Like the Anemone Alba, from which it is a sport, the blooming season is in the Autumn, then it is that the great value of our Anemone Whirldwind becomes apparent, as all flowers are very scarce at this season, especially white flowers, therefore this variety will prove to be indispensable to florists on account of its wonderful adaptability for use in all floral and ornamental designs.

The flowers are about 2½ inches in diameter, pure snowy white, of good substance and very handsomely formed, having several rows of petals.

The plant makes a strong healthy growth, is well covered with foliage, and in this variety has proved to be even more hardy than its parent; this we consider another great point in its favor.

Having by special effort grown an immense stock of this superb novelty, we are enabled to offer it at a price within the reach of all.

Price, per dozen, $1.00; hundred, $8.00; thousand, $70 00.

CARNATIONS.

Of the many novelties in Carnations, we offer the following as those which have special merit, and should receive a thorough and extended trial. With us all have done remarkably well. They are strong, healty, vigorous growers, producing large, showy flowers of good substance, and in every respect strictly first-class.

SWEETBRIER.—Flowers a delightful shade of pink, borne on long stems. Plant a strong, healthy grower; blooms early and continuously. Promises to become very popular. Delightfully fragrant. Rooted cuttings, per dozen. 50 cts.; hundred, $3.00; thousand, $25.00. Plants, per dozen, 85 cts.; hundred, $6.00; thousand, $50.00.

UNCLE JOHN.—Flowers pure white, large, full, and of remarkable substance. Plant of good habit, a strong grower and prolific bloomer. Rooted cuttings, per dozen, 50 cts.; hundred, $3.00; thousand, $25 00. Plants, per dozen, 85 cts.; hunrded, $6.00; thousand. $50.00.

JACQUEMINOT.—A very promising crimson; the best of its class yet introduced. The flowers are large, petals of great substaoce, and being thrown well out of a strong calyx before expanding, removes the cause of splitting. Rooted cuttings, per dozen, 50 cts.; hundred, $3.00; thousand, $25.co. Plants, per dozen, 85 cts; hundred, $6.00; thousand. $50.00.

WM SCOTT.—The habit of this variety is strong, vigorous and healthy, every pip producing bloom. The flowers are a bright, yet delicate shade of pink, full, well formed and beautifully fringed. Rooted cuttings, per dozen, 50 cts.; hundred, $3.00; thousand, $25 00. Plants, per dozen, 85 cts.; hundred, $6.00; thousand, $50.00.

THE STUART.—Every Carnation grower is looking for the "Ideal" scarlet. All are in want of a good scarlet which is a good grower, free bloomer, and has all the characteristics which tend to make a strictly first-class variety. "The Stuart" is the new candidate for this position. It is really a very promising sort and well worthy of extended trial. In color it is a very brilliant scarlet, with broad, light green, healthy foliage, producing its blooms on long stiff stems. Try it. Rooted cuttiogs, per dozen, 50 cts.; hundred, $3.00; thousand, $25 00. Plants, per dozen, 85 cts.; hundred, $6.00; thousand, $50.00.

CARNATION DAYBREAK.

This is the most popular Carnation now in cultivation, and is in greater demand than any other tinted or colored variety. For the retail trade it has no equal, as it is a great favorite with the ladies.

Daybreak is entirely distinct from any Carnation grown.

Rooted cuttings, per dozen, 35 cts.; hundred, $2.00; thousand, $15 00.

Platns, per dozen, 60 cts.; hundred, $4.00; thousand, $35.00.

CARNATION NELLIE LEWIS

It is now an established fact that *Nellie Lewis* is one of the most beautiful Carnations in cultivation, and with us is *The Standard Pink* variety.

The color is all that can be desired, being of the most *Brilliant Pink* with light splashes of carmine, which adds greatly to the intensity of color, and yet are hardly discernable.

The plant is a very strong, vigorous grower, unsurpassed in freedom of bloom, delightfully fragrant, and has no equal for producing flowers on long stiff stems.

Rooted cuttings, per dozen, 25 cts.; hundred, $1.50; thousand, $10.00.

Plants, per dozen, 60 cts.; hundred, $4.00; thousand, $30.00.

NEW PINK, HER MAJESTY

Every Florist should secure a stock of this wonderful novelty at once.

It is perfectly hardy, and will be grown by the thousand to supply the demand for cut flowers.

The flowers are of large size, similar to a Carnation, and of the purest white, very fragrant, and borne on setms about 12 inches long.

Her Majesty was awarded 9 first-class certificates in Europe.

Price, per dozen, 75 cts.; hundred, $6.co.

PINK, HER MAJESTY.

New Early Blooming Yellow Chrysanthemum,

GEORGE S. CONOVER.

The grand, new, *earliest of all yellow* Chrysanthemum. In the Geo. S. Conover we have the wonderful combination of a first-class large flowering and early blooming yellow Chrysanthemum which has long been the want of the professional florist. This variety blooms at the same time as "Ivory," and the flowers, under ordinary cultivation, attain a size from 6 to 9 inches in diameter.

The color is a beautiful shade of brilliant yellow, the petals firm, partly tubular and partly flat, which adds greatly to the beauty of the flower. The plant is an extra strong grower, producing very long, stiff flower stems, which are well furnished with a dark showy foliage.

Read what Mr. Wm. Falconer says about our *Grand New Yellow Chrysanthemum.* The following is from his pen, and appeared in "Gardening" January 1st, 1895:

"*George S. Conover Chrysanthemum.* What about it? Why don't we find it at our exhibitions and spoken of generally? Because we presume it has been distributed among amateurs rather than in the channels of exhibitors and the trade. But it is a good one. It is a fine, large, bold, deep yellow flower of good substance. The plants are stout and stocky, and the stems strong and stiff and well clad with healthy, succulent foliage. It is one of the best varieties we grew this year at Dosoris. When it was at its best we often wished the genial old gentleman after whom it was named could have dropped in to see it."

Mr. Wm. Davison, of Bouvardia Davisonii fame, expresses himself in a similar manner to Mr. Falconer in the following to our esteemed friend, Mr. Conover:

"*Friend Conover:* NYACK, N. Y., November 4, 1894.

The fine flowers of Geo. S. Conover Chrysanthemum reminds me to write to you. Messrs. Vick & Hill sent me two plants; they have *done fine with me; the color and form is fine.* I think if it had been more advertised last spring it would have been exhibited more this fall. There is so many new kinds, unless they are pushed into notice they stand a poor chance; but *worth* will work its way up and *anyone growing Geo. S. Conover will continue to do so. It is an ideal retail florists' flower.*

Yours, etc., W. DAVISON.

Strong plants, per dozen, 75 cts.; hundred, $6.00.

NEW FRENCH CANNAS.

	DOZ.	100
Egandale.—Splendid scarlet bedder with dark foliage, large flowers and immense compact spikes	$1 50	$12 00
Explorateur Crampbel.—Very large petals, large open flowers and spike; color briliant scarlet, covered with showy crimson spots; the most handsome and showy of all the red sorts; foliage green; strong grower	1 00	8 00
J. D. Cabos.—A distinct sort with handsome orange colored flowers and showy bronze foliage; a new and novel color, making it one of the most desirable new varieties; very free bloomer	1 50	12 00
Geo. W. Childs.—In color this variety is similar to Mad. Crozy, but the petals have a broader yellow band and throat; the spikes are very long and full, many blooms being open at one time, making a beautiful display quite equal to Gladiolus; the plant grows to a height of less than 3 feet, produces its flowers well above the foliage, and will prove very valuable as a border variety	1 50	12 00
Florence Vaughan.—This superb variety may be ranked as one of the best and most beautiful of the newer sorts; the flowers are of immense size and have large, broad, well rounded petals; color bright lemon yellow, with brilliant showy red spots; splendid broad green foliage	1 50	12 00

	DOZ.	100
Alphonse Bouvier.—The finest crimson; on opening the flowers are intense brilliant crimson, but change to a beautiful deep crimson as they more fully expand; the spikes are very large, and the flowers of immense size; the plant is a robust grower, and is well covered with a rich green foliage	$1 00	$8 00
Paul Marquant.—An entirely distinct and novel color; the flowers are of a very bright salmon scarlet, shading to rosy carmine; very handsome and desirable; foliage rich dark green	1 00	8 00
Captaine P. de Suzzoni.—The best of the spotted varieties; the flowers are a rich shade of canary yellow, beautifully spotted and dashed with a handsome shade of red; foliage light green	1 00	8 00

AZALEAS.--FOR EASTER.

The Azaleas we offer are very strong and have full, well developed heads.

First size, crowns 12 to 15 inches in diameter, each 75 cents; per dozen, $8 00.

Second size, crowns 10 to 12 inches in diameter, each 60 cents; per dozen, 6.50.

Third size, crowns 8 to 10 inches in diameter, each 45 cents; per dozen, 5.00.

FUCHSIA TRAILING QUEEN.

New Fuchsia, Trailing Queen.

This new and entirely distinct variety will prove of great value, because of its distinct trailing habit. The plant is a very robust grower, and sends out strong, trailing vines, which will droop two or three feet in a very short time.

It branches freely, and as the growth continues downward these branches furnish an abundance of bright, rosy-scarlet flowers. The flowers are borne in clusters, are very large, long and graceful; buds, tube and sepals a bright rosy scarlet, while the corolla is of a rich violet-purple.

In all work, such as window boxes, hanging baskets, etc., this Fuchsia will be found invaluable, as the bright, showy flowers will greatly enliven and relieve the usual mass of dull foliage.

Per dozen, 75 cts.; per hundred, $5.00.

CLEMATIS.

We have an immense stock of these beautiful hardy climbers.

	100	1,000
Henryi.—The best large flowering single white sort; strong two-year plants	$25 00	$220 00
Jackmanni.—The best large flowering purple sort; strong two-year-old plants	25 00	220 00
Paniculata.—We can hardly say too much in praise of this little beauty. The vine is a strong, robust grower and is covered in August and September with a snowy mass of beautiful star shaped white flowers. No other flowering vine that we know of so completely covers itself with flowers. The panicles of bloom are very useful to the florist, both for decorative and design work; strong two-year roots	DOZ. $1 50	100 $10 00

NEW BEDDING AGERATUM.

	DOZ.	100

BOUVARDIA.

This valuable class of plants has been much neglected of late, as growers in general have devoted all their available bench room to the Rose, Chrysanthemum and Carnation. With us the Bouvardia pays well. Each season we devote one entire house to its cultivation, and the flowers find ready sale at a good profitable margin, the single varieties selling readily at three dollars and the double at four dollars per hundred, wholesale, during the holiday season, and at other times always in demand at a good living profit. To those who have had no experience in growing this beautiful class of plants, it might be well to say they require about the same treatment and temperature as Carnations.

Strong plants from open ground, ready about September 1st, per dozen, $1.00; hundred, $7.00.

New Ever-Blooming Cannas.

The French, or Ever-blooming Cannas, are now the most popular bedding plants we have The flowers are of immense size, brilliant, showy and gorgeous. Their wonderful freedom of bloom, large flower heads and beautiful foliage cannot be excelled by any other bedding plant for a grand display.

These Cannas are also very desirable for house culture. After the plants have done duty in the garden all summer, the roots may be divided, potted, and started into growth. They will soon make elegant blooming plants, and will sell readily with any florist having retail trade.

The varieties we offer are among the best and most popular of recent introduction.

Madam Crozy. This is the grandest Canna of all. Its flowers are of the largest size and most brilliant, showy color, being a flaming crimson-scarlet, bordered with gold. A rare and beautiful combination of colors, having all the beauty of the rarest Orchid. The plant is of strong, vigorous growth, yet dwarf in habit, not exceeding four feet in height, with massive bright green foliage. As a bedding variety Madam Crozy has no equal for making a grand display, and is quite as desirable for pot culture at Star of '91	$1 00	$7 00
Star of '91. This beautiful and popular variety is of more dwarf habit than Madame Crozy, growing only about three feet in height, which for many purposes is a great advantage, especially in pot culture, or for planting in front of the taller sorts when bedded. The habit of the plant is all that can be desired; it has beautiful foliage. and the large handsome trusses of brilliant orange-scarlet flowers are produced without intermission as long as the plant is kept in a growing condition	1 00	7 00

HYDRANGEA.

New Red Branched. (*Ramulis Coccineis.*) The most beautiful variety ever sent out. The flower heads are of immense size and produced abundantly; even the smallest plants throw heads of bloom that would do credit to those of a much larger size. The branches are of a dark red color, brightening to clear crimson as they near the flower heads, which are of a handsome shade of deep rose color. All who grow this class of plants for Easter flowering should propagate it largely.
